America's Best Nursing Homes 2024

Families across the nation entrust nursing homes with the health and dignity of their loved ones. Finding the right facility is not just about numbers; it's about ensuring your family member receives the care and attention they deserve.

To support families as they consider their options, *Newsweek* has partnered with respected global data research firm Statista to create our third annual ranking of America's Best Nursing Homes.

The rankings are based on five data sources, including performance data, peer recommendations, management of the COVID-19 situation and accreditations from The Joint Commission and Commission on Accreditation of Rehabilitation Facilities. For the first time, resident satisfaction data for nursing homes, based on National Safety Goals from The Joint Commission and Google Scores, has been added to the scoring model.

We hope this ranking is helpful in making elder care choices for yourself or your family.
